Introduction

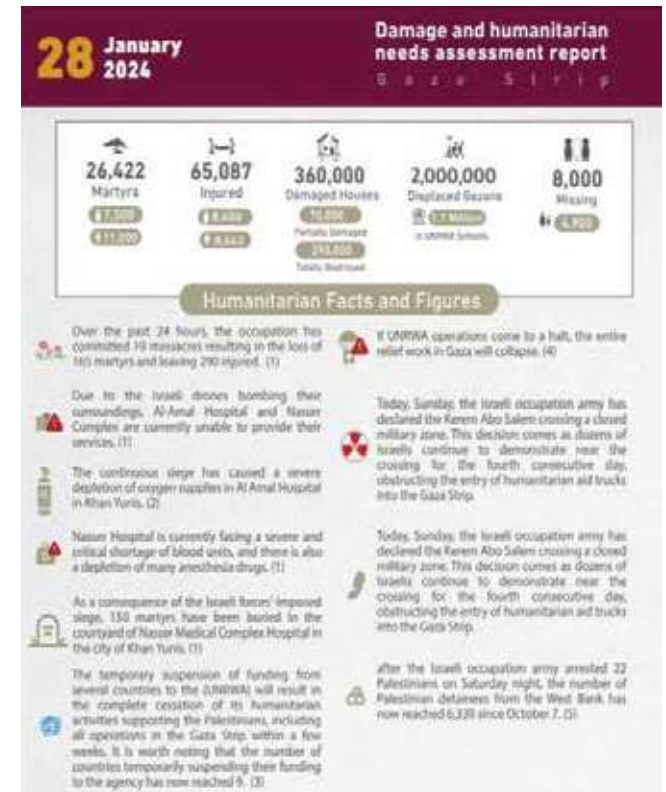

In light of the ongoing Israeli aggression on the Gaza Strip and the West Bank, and as Palestinian people continue their battle for independence, dignity and breaking-free from the longest-ever occupation during which they have drawn the finest displays of bravery and heroism in confronting the Israeli murder machine and aggression. The reality of what happened on Oct. 7, the motives behind it, its general context related to the Palestinian cause, as well as a refutation of the Israeli allegations, and an effort to put the facts into perspective.

The battle of the Palestinian people against occupation and colonialism did not start on Oct. 7, but started 105 years ago, including 30

years of British colonialism and 75 years of Zionist occupation. Over these long decades, the Palestinian people suffered all forms of oppression, injustice, expropriation of their fundamental rights and the apartheid policies. The seven million Palestinians living in extreme conditions in refugee camps and other areas who wish to return to their lands, and who were expelled 75 years ago. Proceeding from the above, Operation Al-Aqsa Flood on Oct. 7 was a necessary step and a normal response to confront all Israeli conspiracies against the Palestinian people and their cause.

It was a defensive act in the frame of getting rid of the Israeli occupation, reclaiming the Palestinian rights and on the way for liberation and independence like all peoples around the world did. According to official figures, in the period between (January 2000 and September 2023), the Israeli occupation killed 11,299 Palestinians and injured 156,768 others, the great majority of them civilians. From Oct 7th, 2023 to 28th Jan, 2024 the death toll increased to 26, 422 and 11,000 of them were children.

There is an urgent need for humanitarian assistance in Gaza, encompassing necessities such as food, shelter, water, and sanitation, particularly for over 1.1 million women and girls. The Gaza Strip is ensnared in a deadly cycle of conflict, malnutrition, and diseases, posing a threat to over 1.1 million children. There is a severe shortage of essential medicines, vaccines, medical supplies, and primary care items, with a deficit exceeding

60%. The infrastructure, healthcare, and services in Rafah are fragile and inadequate to meet the needs of 1.3 million citizens and displaced individuals. The situation in the Gaza Strip is catastrophic, with only 5% of the medical institutions' workforce remaining. Aid remains inaccessible to hundreds of thousands of people in northern Gaza and across the Strip. The war's toll extends beyond immediate challenges, severely impacting Gaza's economy and infrastructure, with more than half of homes destroyed, further deepening the region's long-term struggles.

Intervention priorities

Health Sector	Shelter Sector	Relief Sector	General Livelihood Needs
<ul style="list-style-type: none"> • Fuel for hospitals and ambulances • Medicine and medical supplies • Reproductive health supplies for hospitals To enable safe delivery • POSTPARTUM KITS 	<ul style="list-style-type: none"> • Mattresses and blankets • Cash assistance 	<ul style="list-style-type: none"> • Food Parcels • Drinking water • Diesel for municipalities to operate water pumping stations. 	<ul style="list-style-type: none"> • Cash sponsorship for the families of the wounded and martyrs • Cash assistance for displaced people.

Potential Risks

- There is an urgent requirement for humanitarian assistance, including food, shelter, water, and sanitation, for over 1.1 million women and girls.
- In the Gaza Strip, %90 of children are unable to fulfill their basic water needs.
- Severe food poverty affects %90 of children under the age of two in Gaza.
- The Gaza Strip is trapped in a deadly cycle of conflict, malnutrition, and diseases, posing a threat to over 1.1 million children.
- The number of hepatitis A cases in the Gaza Strip has reached 8,000.
- Approximately 600,000 citizens in the northern Gaza Strip are facing death due to famine, the spread of diseases, and Israeli bombardment.
- There is a severe shortage of essential medicines, vaccines, medical supplies, and primary care items, with a deficit of over %60.
- Approximately %66 of the population in the Gaza Strip suffers from water-borne diseases such as cholera, chronic diarrhea, and intestinal diseases.
- The infrastructure, healthcare, and services in Rafah are fragile and insufficient to meet the needs of 1.3 million citizens and displaced individuals.
- Aid remains inaccessible to hundreds of thousands of people in northern Gaza and across the Strip.
- The situation in the Gaza Strip is catastrophic, with only %5 of medical institutions' workforce remaining.

Expressions of Gratitude: Acknowledging Our Supporters & Patrons

MyFundAction has been actively involved in various campaigns aimed at supporting Palestine, focusing on initiatives such as the establishment of the Waqf Medical Centre in Umm al-Khair, supporting the education of Palestinian orphans, and providing crucial emergency relief. These campaigns have been strategically executed, covering distribution efforts in both Gaza and the West Bank of Palestine. To ensure the effective implementation of these initiatives, MyFundAction has cultivated partnerships with reputable NGOs serving as implementing partners on the ground. Notable collaborators include UFUK İnsani Yardım Eğitim Kültür Kalkınma Derneği (UFUK Association for Relief and Development), Medeniyetler Köprüsü Gelişim Ve Kalkınma Derneği (Civilization Bridge Development and

Improvement Association), International Educational Scientific and Cultural Organisation (IESCO), Cinta Gaza Malaysia and Friends of Palestine (FOP). Through these strategic alliances, MyFundAction remains dedicated to making a meaningful impact in addressing the immediate needs and fostering long-term development in Palestine. MyFundAction commenced the distribution of relief aid for Palestine in 2020, with a total distribution amounting to \$438,984.28. Our commitment extends to providing essential necessities to over 164,000 Palestinians spanning from Gaza to the West Bank.

We extend our heartfelt gratitude to all our supporters and patrons who have generously supported to the success of the "Emergency Relief for Palestine" campaign. Through your unwavering support and dedication since October 2023, we have collectively raised an astounding \$596,078.13. This remarkable achievement would not have been possible without the collaborative efforts of corporate partners, government agencies, mosques, and individual patrons who rallied behind our cause. Your supports, whether through online

or offline platforms, have made a tangible difference in providing essential aid to those affected by the crisis in Palestine. Your compassion and solidarity exemplify the true spirit of humanity, and we are deeply thankful for your unwavering support in this critical endeavor. Together, we stand as a beacon of hope for those in need, demonstrating the power of unity and compassion in making a positive impact on the lives of others.

Our Goals and Scope of Work

MyFundAction is a YOUTH-run non-profit organization that is driven by love and passion, particularly through volunteerism and entrepreneurship. Our main objective is to amplify the value of entrepreneurship, volunteerism, innovation, and creativity in the development of youth. We accomplish this by mobilizing volunteers for community development programs and humanitarian relief projects. MyFundAction places a strong emphasis on youth development across four key segments, aligning with the mission of Sustainable Development Goals (SDG):

- Economic Empowerment (SDG 1 & SDG 8)
- Food Security (SDG 2)
- Healthcare (SDG 3 & SDG 6)
- Education (SDG 4 & SDG 11)

Our Stakeholders

Standing in Solidarity:

PDRM Launches Palestine Solidarity Fund with MyFundAction

The launch of the Palestine Solidarity Fund by the Royal Malaysia Police (PDRM) in partnership with MyFundAction is not just a gesture of support; it's a beacon of hope illuminating the path towards a brighter future for Palestine. Inspector-General of Police Tan Sri Razarudin Husain's words resonate with empathy and compassion, reflecting a shared sense of solidarity with our brothers and sisters in Palestine. As we extend our hands in assistance, let us remember that even the smallest act of kindness can ripple into waves of change. This initiative transcends borders and differences, uniting us in a collective mission to alleviate suffering and restore dignity. In the face of adversity, let us stand firm in our commitment to justice and compassion, knowing that together, we can make a difference. In a world marred by conflict and injustice, such initiatives are crucial in providing tangible assistance to those enduring hardship in Palestine. This collaborative effort not only demonstrates solidarity with the Palestinian people but also showcases Malaysia's commitment to humanitarian principles and international solidarity. By establishing this fund, the Malaysian police force and MyFundAction are offering a channel for individuals and organizations to contribute towards alleviating the suffering of Palestinians affected by ongoing conflicts and socio-economic challenges. This initiative underscores the importance of collective action and solidarity in addressing global injustices and advancing the cause of peace and justice in Palestine. Let us embrace this opportunity to sow seeds of hope and love, for in doing so, we sow the seeds of a brighter tomorrow for Palestine and beyond.

Unity in Action:

Collaborative Support for Emergency Palestine from Kumpulan Perangsang Selangor

Our campaign "Solidarity for Palestine" has been bolstered by our esteemed corporate partner, Kumpulan Perangsang Selangor (KPS). Their generous support of \$11,000 exemplifies their unwavering commitment to humanitarian causes and underscores the power of collaboration in addressing global challenges. KPS's collaboration with MyFundAction dates back to 2023, where together, we embarked on the Community Development Project in Selangor, which has yielded significant positive impacts on local communities. This longstanding partnership highlights the synergies between corporate entities and non-profit organizations in driving meaningful change and fostering socio-economic development. Through collective efforts and shared values, we continue to strive towards our shared goal of providing urgent relief and support to the people of Palestine, demonstrating the transformative potential of collaborative action in making a tangible difference in the lives of those in need.

CEO of MyFundAction, Mr. Ghafur Rahim, received the mock cheque of "Solidarity for Palestine" from the CEO of KPS, Mr. Ahmad Fariz Hassan and Mrs. Suzila Khairuddin Deputy CEO (Finance & Corporate Services)

Summary Distribution Reports

Oct 2023 – Jan 2024

The crowdfunding campaign initiated by MyFundAction to support Emergency Relief for Palestine has yielded remarkable results, with a total collection of \$596,078.13. This substantial amount was raised through various channels, including the Waqf Medical Centre, Medicine and Medical Supplies, Hot Meals Distribution, as well as Hygiene Kit and Baby Kit Distribution initiatives. The funds were diligently utilized, with a total expenditure of \$124,216.54, which directly benefited 114,640 Palestinian individuals in Gaza. This significant contribution underscores the generosity and compassion of the global community towards addressing the urgent humanitarian needs in Palestine.

Total	\$124,216.54		Total Beneficiaries	114,640

Implementation 1: Hot Meals Distribution

The inaugural distribution on October 10th marked a significant milestone for our relief efforts, as we successfully distributed 8,000 packs of hot meals across key locations in Gaza, including Khan Younis, Beit Hanoun, and Jabalia. The total cost incurred is \$15,750.00. The distribution aimed to address the immediate food needs of vulnerable communities in North Gaza. The team worked diligently to coordinate logistics, ensuring a smooth and efficient process. Beneficiaries in each location received warm, nutritious meals, providing sustenance during these challenging times. The positive feedback from the recipients underscored the impact of our initiative in addressing the pressing needs of the affected populations. As we reflect on this initial distribution, it serves as a foundation for future endeavors and reinforces our commitment to providing essential support to those in need throughout the region.

Implementation 2: Hot Meals Distribution

In our ongoing commitment to addressing the immediate needs of vulnerable communities in Gaza, our second distribution took place on 20th October, 2023 in Jabalia, Al-Maghazi Camp, and Deir al-Balah with the total cost of \$20,000. This operation successfully delivered 10,000 packs of hot meals to residents in these areas, providing crucial sustenance during challenging times. The distribution process was conducted meticulously to ensure equitable access and efficient delivery of warm, nutritious meals to those in need. The positive impact of this initiative was palpable, with recipients expressing gratitude for the support. The second distribution not only builds upon the success of our initial efforts but also reinforces our dedication to making a meaningful difference in the lives of those affected by the ongoing challenges in Gaza. As we move forward, we remain steadfast in our commitment to providing essential support and addressing the evolving needs of the communities we serve.

Implementation 2: OPS Ihsan Distribution of Ready to Eat (RTE) Packs

In our ongoing collaborative efforts with 53 NGOs in Malaysia under "Ops Ihsan," our third distribution, which took place on 3rd November 2023, involved the collective dispatch of 10,000 packs of Ready-To-Eat (RTE) meals to communities in need in Gaza.

This distribution represents a cumulative endeavor that contributes to the broader initiative's success. In total, Ops Ihsan, in collaboration and support with the Ministry of Foreign Affairs, has facilitated the dispatch of approximately 100 tons of aid relief to Gaza through three distinct phases of sorties in the form of medicines, medical equipment, food, baby and women's necessities and winter necessities worth RM3 million. This multi-phase approach reflects the concerted efforts of various stakeholders, emphasizing the impact that strategic collaborations can have in addressing the pressing needs of affected populations. As we reflect on our cumulative achievements, we remain committed to sustained collaboration and support for the well-being of those in Gaza.

The goods received by the Egyptian Red Crescent Society will be taken into Gaza through the Rafah border before being handed over to the Palestine Red Crescent Society, which will be responsible for distributing them to hospitals and also to those in need in Gaza.

• The third humanitarian aid mission from Malaysia to Gazans under "Ops Ihsan" successfully arrived at the El Arish International Airport in Egypt,

The collective and integrated efforts of the Foreign Ministry, government agencies and over 60 non-governmental organisations (NGOs), coupled with the spirit of Malaysians, proved crucial in the success of Ops Ihsan. Ops Ihsan has proven to be effective through the structured and efficient management and use of resources and expertise of the various organisations involved. This collaboration has managed to prevent overlapping and misappropriation to ensure the aid provided met their requirements and reached those in need.

• The Yang di-Pertuan Agong, Al-Sultan Abdullah Ri'ayatuddin Al-Mustafa Billah Shah on Monday (Dec 18) witnessed preparations for Malaysia's third delivery of the Ops Ihsan humanitarian aid for the Palestinian people at the Kuala Lumpur International Airport (KLIA) cargo terminal here.

Implementation 4: Medicine, Medical Supplies Distribution & Hot Meals Distribution

In our fourth distribution effort, we implemented a comprehensive outreach program encompassing the distribution of medicines, medical supplies, and hot meals at Shuhada Al-Aqsa School and Malaysia School, located in the heart of Gaza. The combined value of these essential provisions amounted to \$9,737.28. This distribution aimed to address critical healthcare needs and provide nourishment to the community, particularly in areas where access to such resources may be limited.

The strategic locations of Shuhada Al-Aqsa School and Malaysia School enabled us to target a wide demographic, ensuring that the impact of our humanitarian efforts reached those in need, especially those taking shelter in the schools. This distribution represents our ongoing commitment to enhancing the well-being of communities in Gaza, addressing both immediate medical requirements and nutritional needs in a holistic manner.

The Project Manager for Palestine, Nabihah Zakaria, tallied the total number of boxes containing ready-to-eat meals in the warehouse before they were transferred to MAS Kargo

Implementation 5: Medicine & Medical Supplies Distribution

In our fifth distribution endeavor, we focused on the critical sector of healthcare, specifically directing our efforts towards Al-Aqsa Martyr Hospital. This distribution involved the provision of medicines and medical supplies with a total value of \$20,000. Our aim was to bolster the medical capabilities of the hospital, ensuring that it is well-equipped to meet the healthcare needs of the community it serves. This strategic allocation of resources reflects our commitment to strengthening healthcare infrastructure in Gaza, particularly at a crucial institution like Al-Aqsa Martyr Hospital. Through these ongoing distributions, we strive to contribute meaningfully to the well-being of the local population by addressing immediate medical requirements and fortifying essential healthcare facilities.

Implementation 6: Phase 1 Psychological Supports for Gazan Kids

In our sixth distribution initiative, we initiated Phase 1 of a psychological support program designed specifically for the well-being of Gazan children. This phase targeted 1,000 children in two shelters located in Beit Al-Maqdis and Abdul Qader Al Hussein Camp in Khan Younes, Gaza.

The program aims to provide essential psychological support to help alleviate the emotional impact of the ongoing challenges faced by the children. Through interactive activities, gift distributions and a safe space for expression, our objective is to contribute positively to the mental health and resilience of these children. This distribution represents a crucial aspect of our holistic approach to addressing the multifaceted needs of the community in Gaza, particularly focusing on the mental well-being of its youngest members

Implementation 7: Hot Meals Distribution For 13 Days Consecutively

In our seventh distribution initiative, we undertook the noteworthy endeavor of providing hot meals for thirteen consecutive days to residents in Deir al-Balah, Khan Younis, Nusairat Camp, Bureij Camp, and Al-Maghazi Camp, benefiting a total of 72,500 Palestinians. The total cost of this extensive effort amounted to \$17,000. During the implementation, a compelling incident was reported to our project manager in Malaysia by our implementor. The story highlighted a remarkable event where, by the grace of Allah, the usual quantity of food prepared for 5,000 people unexpectedly proved sufficient for over 7,000 individuals.

Typically, our partner distributes meals to one camp, but on this particular day, the distribution had to be extended to three camps to utilize the surplus food. This incident illustrates the blessings and abundance from Allah, reinforcing the impact of our support in alleviating hunger among our Muslim brothers and sisters in Gaza. It serves as a

testament to the significance of our efforts in providing essential sustenance during challenging times.

No.	Area/ School	Number of Beneficiaries
1.	Al-Aishiya School	5,800
2.	Martyr Abdul Karim Al-Aklouk School	7,000
3.	Al-Shuhadaa School, Deir Al-Balah	6,000
4.	Al-Aqsa Martyrs Hospital	5,000
5.	Al-Manfalouti School	6,000
6.	Al-Maghazi Girls School	5,000
7.	Fathi Al-Balawi School	5,000
8.	Al-Ezz Bin Abdul Salam School	5,000
9.	Ahmed Al-Kurd School	7,000
10.	Technical College	5,700
11.	New Wadi Camp	5,000
12.	Al-Aqsa Camp	5,000
13.	Deir Al-Balah Boys School	5,000

Implementation 8: Phase 2

Psychological Supports for Gazan Kids

In our eighth distribution, we launched Phase 2 of our psychological support program tailored for Gazan children in Khan Younis, Gaza. Building upon the success and positive impact of the initial phase, this extended initiative aims to provide continued emotional and psychological assistance to the young minds affected by the persisting challenges in the region. Through targeted counseling sessions, interactive activities, and a nurturing environment, we strive to further contribute to the mental well-being and resilience of these children. This ongoing effort underscores our commitment to addressing the unique needs of Gazan youth, recognizing the importance of psychological support in their holistic development amidst challenging circumstances.

<p>Other Details</p>	<p>MyFundAction, in collaboration with OPS Ihsan, represents a coalition effort involving 53 NGOs in Malaysia. Together, we are working cohesively to deliver aid to Gaza through both air and sea routes, in partnership with MAS Kargo and Aramex. Our team is pleased to be part of this coalition, contributing aid and support to the Palestinians. The combined strength of our coalition underscores our dedication to making a positive impact and promoting humanitarian endeavors. Specifically, the quarterly items sent include Ready-to-Eat packs, hygiene kits, baby kits, and medicine kits.</p>		

Project Justification

This project aims to address the urgent needs of the vulnerable population in Gaza, focusing on key sectors to enhance their overall well-being.

Objectives

The primary objectives of this project are to alleviate immediate hardships and contribute to the long-term well-being of the community in Gaza, particularly focusing on the food and health sectors. Additionally, the project aims to provide essential support to children, recognizing their unique needs in times of crisis.

Output & Outcomes

No.	Output	Outcomes
1.	Food Sector: <ul style="list-style-type: none">▪ Distribute daily hot meals to 5,000 individuals.▪ Provide daily Iftar meals to 5,000 individuals.▪ Distribute 20,000 Ready-To-Eat (RTE) food packs every quarter through OPS Ihsan.	The anticipated outcomes of this project include improved food security to increase resilience among the affected population.
2.	Health Sector: <ul style="list-style-type: none">▪ Distribute 4,000 packs every quarter through OPS Ihsan, including hygiene kits, baby kits, and medicine kits.	This to enable the humanitarian assistance in Gaza, encompassing necessities such as sanitation and severe shortage of essential medicines, vaccines, medical supplies, and primary care items, with a deficit exceeding 60%.
3.	Support Children in Gaza: <ul style="list-style-type: none">▪ Offer psychological support to children affected by the crisis.▪ Provide education aid in the form of cash assistance.▪ Distribute Ramadhan aid to support during the holy month.▪ Distribute Eid gifts to bring joy and normalcy to children.▪ Facilitate Eid Adha celebrations for the children in Gaza.	By supporting children, the project aims to mitigate the psychological impact of the crisis and ensure continued access to education, promoting a sense of normalcy and well-being. Reduced financial burdens on the guardians of the children, leading to improved living conditions for the entire family.

Monitoring & Evaluations

Guidelines for Monitoring & Evaluation (M&E) in Palestine Project Execution:

1. Baseline Assessment:

Conduct a baseline assessment before project initiation to gather relevant data on the current conditions and needs of the target beneficiaries in Palestine. This will serve as a reference point for assessing the project's impact later.

2. Quantifiable Targets:

Set specific, measurable, achievable, relevant, and time-bound (SMART) targets for each project component. For instance, specify the number of daily hot meals, Iftar meals, RTE food packs, and health kits to be distributed.

3. Monitoring Mechanisms:

Implement robust monitoring mechanisms to track the progress of each project component. Utilize a combination of

field visits from the implementor, regular reports from implementing partners, and feedback from beneficiaries to ensure accountability and transparency.

4. Documentation:

Maintain detailed records of all activities, including distribution logs, beneficiary lists, and any challenges faced during implementation. This documentation will be crucial for both internal reporting and external audits.

5. Data Collection Tools:

Develop and utilize appropriate data collection tools such as surveys, interviews, and focus group discussions to gather qualitative and quantitative data. Ensure that these tools are culturally sensitive and consider the unique context of Palestine.

6. Stakeholder Engagement:

Regularly engage with local communities, beneficiaries, and relevant stakeholders to gather feedback on the effectiveness of the projects. This will help in making real-time adjustments and improvements as needed.

7. Quality Control:

Implement quality control measures to ensure that the food items, health kits, and support services meet the necessary standards. Regularly assess the quality and nutritional value of the distributed items.

8. Evaluation Periods:

Conduct mid-term and end-of-project evaluations to assess the overall impact and effectiveness of the interventions. These evaluations to identify best practices, lessons learned, and areas for improvement.

9. Learning and Adaptation:

Foster a culture of learning and adaptation throughout the project lifecycle. Encourage project staff to share insights and experiences, and use this information to make informed decisions for ongoing and future projects.

10. Reporting:

Develop a reporting schedule and template to ensure consistent and timely reporting from all project components. Share progress reports with supporters, partners, and other relevant stakeholders.

11. Feedback Mechanism:

Establish a feedback mechanism that allows beneficiaries to provide input and express concerns. Use this feedback to improve project implementation and address any issues promptly.

12. Cross-Sectoral Coordination:

Promote coordination and information sharing between different sectors involved in the project to ensure a holistic approach and avoid duplication of efforts.

Budget & Resources

No.	Item/Projects	Price per unit (USD)	Quantity	Frequency	Total
1.	Daily hot meals (Jan, Feb, Mar)	3	5,000	Daily (90 Days)	\$1,350,000
2.	Iftar	3	5,000	Daily (30 Days)	\$450,000
3.	Ready To Eat (RTE) food Pack	7	20,000	4 Quarters	\$560,000
Total					\$2,360,000

Forecast Planning for The Food Sector

Total distribution would be 450,000 packs hot meals for January to March and 150,000 iftar hot meals plus 60,000 RTE food packs

No.	Item/Projects	Price per unit (USD)	Quantity	Frequency	Total
1.	Hygiene Kit for Men & Women	40	2,000	4 Quarters	\$320,000
2.	Baby Kit & Medicine Kit	30	2,000	4 Quarters	\$240,000
3.	Waqf Medical Center	551,516	1	1	\$551,516
Total					\$1,111,516

Forecast Planning for The Health Sector

Total distribution would be 8,000 Hygiene Kits for men and women and 8,000 Baby Kits and Medicine Kits

No.	Item/ Projects	Frequency	Price per unit (USD)
1.	Psychological Support	One-off	70
2.	Winter Aid	One-off	70
3.	Educational Aid (Cash)	6 times	420
4.	Ramadhan Aid	2 times	140
5.	Eid Gift	One-off	70
6.	Eid Adha	One-off	70
Total			\$840

Budget

No.	Activity	Amount (USD)
1.	Food Sector	\$2,360,000
2.	Health Sector	\$1,111,516
3.	Education Sector	\$1,512,000
Total		\$4,983,000

Forecast Planning for The Education Sector

The estimated budget for the "Support Palestinian Orphans and Children in Gaza and West Bank 2023/2024" is USD 840 per orphan for 12 months. We plan to support for 1,800 Palestinian orphans in Gaza and West Bank for 12 months. The budget allocation for each phase is as follows:

The cost to support 1,800 Palestinian orphans' totals USD 1,512,000

Timeline For Disbursement of Funds for Palestine 2024-2025

Sustainable Project 1: Timeline “A Better Life for Palestine”

Project Justification:

MyFundAction proposed sustainable project aims to send emergency relief to Gaza on a quarterly basis, spanning from January 2024 to January 2025, in collaboration with various stakeholders. The total cost of the project amounts to \$426,408.92, targeting the provision of essential aid to alleviate the dire humanitarian situation in Gaza. The initiative involves sending approximately 15,000 ready-to-eat (RTE) packed food, including beef stew, and basmathi rice, along with 2,000 hygiene kits for women and men, baby kits, and medicine kits. The packed RTE food can last for up to two years, offering convenience to the people of Palestine who do not have access to cooking facilities. This aspect is particularly advantageous given the challenging circumstances faced by many in the region. The relief aid will then be sent to Gaza from Malaysia.

This collaborative effort is facilitated by a coalition comprising OPS Ihsan, the Foreign Affairs Ministry of Malaysia, the Red Crescent Egypt, and the Egyptian Embassy. The distribution of relief aid is scheduled to occur in January, May, September 2024, and January 2025, ensuring a consistent and timely provision of assistance to those in need. The rationale behind this initiative stems from the high rate and cost of essential items in Egypt due to the heightened demand. Therefore, it is deemed more feasible and cost-effective to dispatch emergency relief aid from Malaysia to Gaza. The strong diplomatic ties and collaborative efforts between Malaysia and Egypt enable us to ensure the swift and efficient delivery of aid to Gaza within a few days upon arrival at El-Arish International Airport, Egypt. This strategic approach not only optimizes the allocation of resources but also underscores the commitment of the international community to addressing the urgent needs of the Palestinian people in Gaza, fostering solidarity and support during times of crisis.

PROGRESS OF ACTIVITIES	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC	JAN	FEB	MAR	APR
A BETTER LIFE FOR PALESTINE (QUARTERLY RELIEF AID, PROJECT TOTAL VALUE: \$426,408.92)																
MyFundAction to provide detailed list on the aid items to be delivered by sea cargo shipment based on current need.																
Communicate and to get approval on the allowable aid items by Egyptian Red Crescent																
Communicate with forwarder on: a) Container sizing and measurement of each pallet of aid b) The total weight per one container c) The total pallet for each container																
Pre-production campaign for Gaza																
Propose design of aid items on branding of Ops Ihsan and logos of respective NGOs																
Finalise final quantity of aid items based on information from the MAS Kargo/ Aramax - 15,000 RTE food packs & 2,000 (Hygiene Kits, Medicine Kits and Baby Kits)																
Production of aid items (3-4 weeks maximum)																
Aid items are ready to transfer to warehouse of Aramax																
Photo-ops and media arrangement at the warehouse and handover gimmick from Ops Ihsan to Aramax

Sustainable Project 2: Waqf Medical Centre Umm Al-Khair

Project Justification:

In the West Bank, there are a total of 8 districts, namely Jenin, Jordan Valley, Nablus, Tulkarm, Ramallah, Maccabim, Bethlehem, and Hebron. Within the West Bank, the Israeli authorities maintain numerous checkpoints at district borders, categorized as Fixed Checkpoints and Mobile Checkpoints. Moreover, vehicles intending to cross these checkpoints are required to obtain distinct permits for each district. This frequent need for permit changes forces patients to switch vehicles whenever they cross into a different district route to the hospital. Consequently, it is these restrictions that pose significant barriers to Umm Al Khair residents' access to hospitals and timely medical care. A journey that should ideally take just one hour often extends to 4-5 hours due to the presence of checkpoints and the need to change vehicles

As a result, the planned medical center in Umm Al Khair, located within this district, will immensely benefit approximately 20,000 residents from seven nearby villages, ensuring they receive high-quality and prompt healthcare, particularly during emergencies. The nearest public hospital is Alia Hospital for Palestinians, while the closest private hospital is Al-Ahli Hospital for Palestinians. This medical center will offer specialized women's health services, facilitating mothers in receiving essential care, especially during childbirth, given that many situations prevent them from reaching a hospital in a timely manner, often resulting in home or vehicle deliveries. Additionally, this medical center will be equipped with a pharmacy, emergency care facilities, radiology services, and a medical laboratory, guaranteeing swift and efficient healthcare services for Palestinian residents in the vicinity dealing with health-related issues.

This project is scheduled for implementation over a 8-months period, starting from June, 2024, to Jan, 2025, with a total budget of USD 551,516. The project encompasses excavation for the foundation and water well, preparation of steel reinforcements, supply and casting of plain concrete for the basement floor, and reinforced concrete for the basement and ground floor. It also includes the construction of reinforced concrete walls, the installation of staircases and an elevator roof. Furthermore, the project covers tiling, painting, curtain installation, and the provision and installation of essential medical devices and equipment in the medical center. Medical Centre is deemed essential for this endeavor.

PROGRESS OF ACTIVITIES	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC	JAN	FEB	MAR	APR
Surveying works and levelling																
Site Levelling, Excavations, site preparation, and adjusting ground levels according to design levels

Sustainable Project 3: Hot Meals & Iftar Project

Project Justification:

The daily hot meals distribution and iftar distribution project during Ramadhan in Gaza serves as a vital lifeline for the local population, particularly in light of the ongoing challenges and hardships faced by the region. Initiated in early October and slated for continuous support, this project addresses the urgent need for sustenance and nourishment among the vulnerable communities in Gaza. The Gaza Strip is caught in a relentless cycle of conflict, leading to widespread malnutrition, diseases, and dire living conditions. With over 1.1 million children at risk, the provision of daily hot meals becomes imperative to mitigate the impact of food insecurity and ensure the well-being of the population.

Moreover, the scarcity of clean water resources and fuel exacerbates the situation, hindering the ability of individuals to cook for themselves and their families. In collaboration with our implementing partners, we have established a central kitchen dedicated to daily meal preparation. This strategic approach enables us to efficiently cater to the nutritional needs of the population while ensuring the equitable distribution of meals to those in need. Furthermore, the meals are provided not only to residents but also to patients, medical professionals, and support staff in the nearest hospitals, particularly in southern Gaza, where access to nutritious food is limited. By sustaining the daily hot meals distribution and iftar distribution, we not only alleviate immediate hunger but also contribute to the overall health and well-being of the community. This project exemplifies our commitment to supporting vulnerable populations in Gaza and underscores the importance of collaborative efforts in addressing the multifaceted challenges facing the region.

Through sustained intervention, we aim to break the cycle of deprivation and promote resilience among the people of Gaza. In addition to the critical need for daily hot meals distribution and iftar distribution in Gaza, it is essential to highlight the financial implications of sustaining this project. **With an estimated 5,000 people requiring support on a daily basis, the operational costs amount to approximately \$15,000 per day.**

To ensure uninterrupted provision of hot meals throughout the month, a budget of approximately \$450,000 is necessary. This funding covers various expenses, including procurement of ingredients, operational costs for the central kitchen, transportation, and personnel expenses.

By acknowledging the financial aspect of this project, we underscore the importance of sustained funding and support from our stakeholders. Securing adequate resources is crucial to maintaining the continuity and effectiveness of the hot meals' distribution initiative, thereby safeguarding the well-being of thousands of individuals in Gaza who rely on this essential lifeline. Through transparent budgeting and efficient resource allocation, we aim to maximize the impact of every dollar invested in this humanitarian endeavor, ensuring that those in need receive timely and nutritious meals on a daily basis.

PROGRESS OF ACTIVITIES	JAN	FEB	MAR
Hot Meals Distribution in South of Gaza (5,000 pax daily)			
Hot Meals Distribution in North of Gaza (5,000 pax daily)			
Hot Meals Distribution in Rafah (5,000 pax daily)			
Monthly Report – Report 1			
Monthly Report – Report 2			
Monthly Report – Report 3			

Project Justification:

Furthermore, it's important to address the specific needs of children in Gaza and the West Bank, who are among the most vulnerable populations affected by the ongoing humanitarian crisis. The "Support for Orphans and Children in Gaza and the West Bank for 2023/2024" is a response to the urgent need to address the challenges faced by children in Gaza and the West Bank especially the orphans. The project's primary goal is to relieve the burdens faced by these children and their caregivers, with a specific focus on providing comprehensive support throughout the academic year, school breaks, and during significant occasions like the holy month of Ramadan and the winter season. The Gaza and West Bank regions have been marked by longstanding conflicts and political instability, resulting in significant socio-economic challenges for the local

population. Among the most vulnerable individuals in these areas are orphaned children who have lost one or both parents, leaving them in precarious situations. These orphans often struggle to access basic necessities and education due to financial constraints. The project also acknowledges the challenges faced during holiday seasons, including Ramadan and winter, which can be especially difficult for orphans and their caregivers. During these times, the financial strain on orphaned families intensifies, and the need for assistance becomes even more critical.

The cost of approximately **\$840 per child is required to provide support for 12 months** to ensure their well-being and access to essential services. In previous years, from 2021 to 2022, MyFundAction successfully supported 223 Palestinian orphans from the West Bank and Gaza. This time, we are committed to expanding our support and aim to assist approximately 1,800 Palestinian children in the years 2023-2024.

This funding covers various aspects, including nutrition, education, healthcare, and psychosocial support, tailored to address the unique challenges faced by children in conflict-affected areas. By incorporating this cost into our project justification, we emphasize the importance of prioritizing the needs of children and investing in their future. Providing comprehensive support to children not only addresses immediate concerns but also fosters long-term resilience and development, paving the way for a brighter and more stable future for the next generation in Gaza and the West Bank. Through targeted interventions and sustained investment, we can make a meaningful difference in the lives of children affected by conflict, empowering them to overcome adversity and thrive despite the challenges they face.

United We Stand Strong

“Indeed, Allah loves those who fight in His cause in a row as though they are a [single] structure joined firmly.”

[Surah As-Saff: 4]
